

BELGAUM INSTITUTE OF MANAGEMENT STUDIES DEGREE COLLEGE ORGANIZED A  
SESSION ON “LANDSCAPE OF ARTIFICIAL INTELLIGENCE AND DATA SCIENCE” FOR  
BCA STUDENTS

The resource person for the event was Miss Chetana Sarang, Entrepreneur Motivational Speaker, Founder and CEO of Dattamsh Ed. Tech LLP. The session started with a welcome Song by Miss Gausiya, Keerti and Vachanashree of BCA I semester.

Resource person Miss. Chetana Sarang highlighted the applications Artificial Intelligence and Data Science. Artificial Intelligence is an **aid for human capabilities** and can **predict the Far-fetched consequences** that the human brain cannot process. Artificial Intelligence has the potential to reduce the **hardships of human labor** and make a possible pathway for the human species to thrive in a beneficial way.

Data Science works on the data and since the quantity of data is growing at a very fast pace, its benefits are also increasing at a good pace.

There were more than 200 students who attended this event. Faculty members of BCA were present for the session. Miss Sabiha proposed the Vote of thanks, the anchoring of entire event was done by Miss Uzma and Miss Sabiha of BCA 1<sup>st</sup> and 3<sup>rd</sup> semester.
