

## BELGAUM INSTITUTE OF MANAGEMENT STUDIES (BCA) COLLEGE ORGANISED A SEMINAR ON "SOFTWARE DEVELOPMENT TECHNIQUES"

Belgaum Institute of Management Studies Degree College organized a seminar on "Software development techniques" for BCA students.

Mr. Vaibhav Chavan was a resource person for this session who is Co-founder of Zeal Code, Code-Villa Belagavi. He is a software developer, Python speaker, member of Python, Java and FOSS (Free Open Source Software) community.

Miss. Limra and Ms. Ummalwara BCA final year students introduced and welcomed the guest.

Resource person Mr. Vaibhav Chawan highlighted about the software development techniques and various platforms and the difference between front end and back end tools.

He also explained how to communicate between two different domains. He briefed about the security software development technologies like JSP, PHP etc which are used in the software development. He also gave the tips on selection of good front end and back end tool during software development.

The students and staff participated interactively in the session and got benefited from the knowledge shared by the speaker.
