

STUDENTS OF SHAIKH CENTRAL SCHOOL VISITED COMMANDO TRAINING WING, BELAGAVI

The aim of the training is to prepare the commandos for any potential evacuation during disasters or any terrorist incidents. Slithering from a helicopter is risky, not only to the commando carrying out the procedure from an airborne helicopter but also to the pilot.

It was an exhilarating experience for the students of Shaikh Central School to watch training on Helicopter Slithering practice for CDOs. It was a golden opportunity for the students to watch this training session at Commando Training Wing, Belagavi. What enthralled the students were the impressive display of military stunts, Snake handling and Commando training movie. It was dream come true for them to watch the sophisticated weapons that have the power to vanquish enemies. Col. Manoj Sharma made a presentation showing motivation and spiritual ways of leading life.

The display was a part of the programme to reach out to students and youth and increase their awareness about the armed forces and also motivate them to join the armed force as a career. The students also witnessed rock climbing and slithering down from a dummy helicopter. Principal, teachers and students thanked Col. Manoj Sharma and his team for providing an insight on the training of commandos.
